

Fisher Broyles

Name: Jeremy Sanders

Email: jeremy.sanders@fisherbroyles.com

Direct: +1.425.394.9038

Office: Seattle

Practice Areas: Intellectual Property; Internet & eCommerce

Bar Admissions: Washington; California; USPTO

Education: J. Reuben Clark Law School, J.D. 2001; Brigham Young University, Mechanical Engineering, 1997

Experience: TerraPower LLC, Associate General Counsel – IP; ATK, Sr. Patent Counsel; James Hardie Building Products, Chief IP Counsel; Lee & Hayes, PLLC; Knobbe, Martens, Olson & Bear LLC

Jeremy focuses his practice on Intellectual Property services that help create and protect the inventions that shape our world. Jeremy has a vast depth of experience and technical understanding, and provides strategic guidance including patent prosecution, portfolio development, licensing, development agreements, opinion work, landscape analysis, and assertion strategies. With an emphasis in the mechanical, electro-mechanical, and software arts, he counsels clients in a variety of technologies, such as:

- Nuclear energy development
- Energy storage and transmission
- Medical devices including radiopharmaceuticals
- Artificial intelligence such as machine vision and learning
- Robotics
- LTE Wireless technologies
- Optics systems
- Sporting equipment
- Computer-implemented business methods
- Software, SaaS, and online solutions
- Satellite and space vehicle launch systems

Jeremy has helped numerous clients create patent strategies that complement their business interests including patent drafting and prosecution before the USPTO, matters before the Patent Trial and Appeal
